They give what is hard to give,

their wealth, family, power and status.

There is nothing they cannot give,

even giving their eyes, marrow and other parts of their body.
Please send me the paperwork needed to be completed in order to ensure that the Tzu Chi Foundation receives my body at the time of my death.

I am healthy and have never had any health problems so I am certain that with my death others could be able to live by having my organs etc.

You know, what I am for - I want no $ to donate - and please do not work for the state. Assist me further in making sure that you have my body at the time of my death.
