

## Asian American Pacific Islander Heritage Month Suggested Caption

In the month of May, we honor all backgrounds of Asian American and Pacific Islander (AAPI) cultures. We celebrate AAPI Heritage Month, and reflect on the life-saving impact of organ, eye and tissue donation within AAPI communities. Over 10,000 AAPI patients are currently waiting for their lifesaving transplant and 93% of those patients are waiting for a kidney transplant. Join the movement, spark hope and register as an organ, eye and tissue donor. Let's make a difference together!
